

Are you passionate about moving the world forward through design? At VenhoevenCS, you'll work on projects in which we address the major issues of our time, such as climate change, biodiversity and inclusivity.

We're looking for an experienced architect (+ 5 years' experience) who wants to make an impact with vision, creativity and drive – all from an inspiring location in the heart of Amsterdam.

Join our diverse, international team, where your expertise and ambition can flourish. With us, you won't just work on leading edge projects; you'll also have the opportunity to engage in continuous professional and personal development.

To strengthen our international team of around 50 designers and architects, we are looking for an

Architect (>5 years' experience)

About VenhoevenCS

We are an innovative architectural practice with a mission: to create a better world for people, animals and the planet. With a team of around 50 colleagues from the Netherlands and abroad, we work on a wide range of projects that address the challenges facing our society. Our core values – forward-thinking, committed and positive – form the basis of everything we do.

What will you be doing?

You will work on inspiring, socially relevant projects from the initial idea through to completion. You will translate concepts into strong designs and develop them carefully, with an eye for both detail and the bigger picture. You'll oversee design quality and keep a firm grip on planning, process and feasibility. In doing so, you'll switch effortlessly between design, technical aspects and coordination. You'll actively liaise with clients and partners, present ideas clearly and convincingly, and contribute to a strong team where sharing knowledge comes naturally.

What do you bring to the role?

We are looking for someone who shares the vision and core values of VenhoevenCS and possesses the following qualities:

- At least 5 years' experience in the design and construction process, covering all design phases;
- A proven ability to manage projects independently;
- Good knowledge of Revit (BIM) and digital design tools;
- Strong visual and verbal communication skills
- Good command of spoken and written Dutch and English (min. level B2);
- Knowledge of French and/or German (level B2) is an advantage.

What do we offer you?

- Projects with a genuine social impact, in the Netherlands and beyond;
- A creative and supportive working environment with short lines of communication and a flat hierarchy;
- A place in an international team with socially engaged colleagues;
- An inspiring workplace in the centre of Amsterdam;
- Opportunities for professional and personal development through our VenhoevenCS Academy and mentoring;

- Salary and fringe benefits in accordance with the Collective Labour Agreement for Architectural Practices;
- Salary between 3,900 and 4,300 euros (scale 6), depending on relevant experience.

Do you see yourself in this role and would you like to help build a better future?

Please send your covering letter, CV and portfolio (PDF, max. 5 MB) to werk@venhoevencs.nl by 5 July 2026.
